10 Buildings That Changed America

The home of Henry Ford's first assembly line, the first indoor regional shopping mall, an airport with a swooping concrete roof that seems to float on air — these are among the buildings surveyed in this cross-country journey to 10 influential works of American architecture. They changed the way we live, work, worship, learn, shop and play. Geoffrey Baer hosts.

The Invisible War

The most shameful and best-kept secret in the U.S. military is the epidemic of rape and sexual assault within the ranks. An American female soldier in a combat zone is more likely to be raped by a fellow soldier than killed by enemy fire. A culture of privilege and impunity has resulted in few prosecutions and the systematic isolation of women who dare to report the crimes.

Nature **Great Zebra Exodus**

When thunderclouds begin to gather over Botswana's Kalahari each year, 20,000 zebras get itchy feet. As the first fat raindrops hit the dust, southern Africa's biggest animal migration gets underway. See the story of this spectacular annual migration through the eyes of a single zebra family: a stallion, his three mares and their offspring.

Rigoletto

Tony Award-winning director Michael Mayer (Spring Awakening) makes his Met debut with a new production of Verdi's *Rigoletto*. The new staging moves the opera's tragic events from a decadent 16th-century Italian court to the glitzy, depraved setting of the Las Vegas strip circa 1960.
