

The Leprechaun

Written and Illustrated

By

Katie Wyman

Once upon a time there was a rainbow that was never spotted. And there was gold on the other side!

One day a Leprechaun came by and saw the rainbow.

He tried to walk over to the other side. But he discovered an invisible force field and he couldn't get to the other side.

Then he tried to climb the rainbow
but the rainbow was too slippery and he
slid down.

Then he found a tall ladder. He climbed the ladder and he got to the top of the rainbow. He slid down the other side of the rainbow.

Then he got all of the gold he wanted.
