The Botany of Desire
Featuring Michael Pollan and based on his bestselling book, this special takes viewers on an eye-opening exploration of the human relationship with the plant world — seen from the plants’ point of view. Narrated by Frances McDormand, the program shows how four familiar species — the apple, the tulip, marijuana and the potato — evolved to satisfy our yearnings for sweetness, beauty, intoxication and control.

Joan Baez
How Sweet the Sound

In the first comprehensive documentary to chronicle the private life and public career of Joan Baez, this film examines her history as an artist and performer as well as her unwavering journey as the conscience of a generation. Following her 2008/2009 world tour, the filmmakers captured Baez in performance and in intimate conversations. Baez is joined in the film by Bob Dylan, David Crosby, Roger McGuinn, Bonnie Raitt and Jackson Browne, among others.

Though they may look like dragons and inspire stories of man-eating, fire-spitting monsters, these creatures are actually monitor lizards, the largest lizards to walk the planet. With their acute intelligence – including the ability to plan – these lizards are a very different kind of reptile, blurring the line between reptiles and mammals.

And even though they haven’t changed much since the dinosaurs, they are successful and versatile at adapting to all kinds of settings.

**TV13 Update:**

Can You See Us Now?
The flood of DTV questions and calls to the station in early summer has now slowed to a trickle. In our efforts to help antenna viewers find our digital channels, the staff here at Public TV 13 has learned a lot about the various technical and reception problems that our viewers can experience. Most important, we’ve learned that every setup and reception situation is slightly different and that many reception problems actually turn out to be issues with TV or set-top box, and knowing how to set them up.

We know there are viewers and TV13 Partners out there who are still having problems, and we urge you to contact us for personalized advice on your reception situation. If you’re having issues with antenna reception or gear setup, please call 800-227-9668 (M-F, 9-5 ET) and take advantage of the expertise our staff has gained from this summer’s troubleshooting.

In an effort to gauge viewership of our three digital channels, Public TV 13 Partners will soon receive a mailing with a survey about DTV. Please watch for our “Can You See Us Now?” envelope in your mailbox, and take this opportunity to let us know how you are viewing us.
