The Tenth Inning
Thousands of bats, three home run records and one “curse” have been broken since Ken Burns last explored the history of America’s national pastime with his landmark 1994 PBS series BASEBALL. Now, Burns and co-director Lynn Novick update the series with two more episodes. Beginning with a crippling strike that alienated millions of fans and brought the game to the brink, this new film tells the turbulent story of our national pastime up to the present. It celebrates baseball’s new Golden Age — an era of unprecedented home run totals, popularity and prosperity — and sheds light on one of the game’s darkest chapters, the steroid era.

Daniel Burnham and the American City
The story of Daniel Burnham, a dreamer, who shaped some of America’s best-known places and spaces. This film explores Burnham’s career and complex legacy as public debate continues today about how and for whom cities are planned.

**Public Eye News**
Each fall, Northern Michigan University students gather at the WNMU-TV studios in a unique student organization — Public Eye News. Under the direction of student producers, they create a daily 15-minute newscast, broadcast on Public TV 13, which includes national and local news stories, weather and sports. During each semester, participants get to experience different crew positions like camera and audio, and learn about the technology of television and working on a deadline in a professional environment. From news-gathering, to writing, to anchoring the newscast, everything you see on Public Eye News is done by students.

**Monday-Friday at 4 pm, begins September 13**

**Lords of Nature**
*Life in a Land of Great Predators*

Birds, butterflies, beaver and antelope, wildflowers and frogs — could their survival possibly be connected to top predators like the wolf and cougar? Narrated by Peter Coyote, this documentary goes behind the scenes with leading scientists to explore the role top predators play in restoring and maintaining ecosystems and biodiversity.

Cachao: Uno Mas
American Masters

A fascinating look at the Grammy-winning bassist Israel “Cachao” Lopez, who died in March 2008. A maestro of legendary status on the world stage, Cachao is considered one of the greatest Afro-Cuban musicians of all time. Together with his brother Orestes, he revolutionized the heart of Cuban music — first in the late 1930s, literally inventing the mambo. Their spontaneous improvisations and innovations established the basis for contemporary Latin jazz and salsa, rock ‘n roll and rhythm and blues.

The Cat in the Hat Knows a Lot About That!

Voiced by award-winning actor Martin Short, Dr. Seuss’s The Cat in the Hat guides friends Sally and Nick – with a little help from the Fish, Thing 1 and Thing 2 – on fun-filled adventures where they make natural-science discoveries, from how bees make honey to why owls sleep during the day. Filled with both adventure and silliness, this brand new series based on the acclaimed The Cat in the Hat’s Learning Library book series, will appeal to preschoolers’ natural curiosity, and engage them in the process of scientific exploration and discovery.
