The National Parks: America’s Best Idea

This 12-hour, six-part documentary series by Ken Burns and Dayton Duncan tells the story of an idea as uniquely American as the Declaration of Independence and just as radical: that the most special places in the nation should be preserved for everyone. From Acadia to Yosemite, Yellowstone to the Grand Canyon, the Everglades to the Gates of the Arctic, the series explores the stories of people who devoted themselves to saving a precious portion of the land they loved.

Yellowstone Land to Life

Filmmaker John Grabowska presents the story of Yellowstone, the world’s first and most famous national park. Formation of glaciers, mountain ranges and the gigantic caldera of a supervolcano provide the saga of this special place. The film delves deeply into the significance behind the scenery and illuminates how Yellowstone’s geology influences where life exists and how it evolves.

Jazz for Young People

What is New Orleans Jazz?

Hosted by New Orleans native and Jazz at Lincoln Center director Wynton Marsalis, this concert at the Ernest G. Morial Convention Center in New Orleans explains the history of New Orleans Jazz through a combination of lecture and performance by Marsalis and his band.

Thursday, September 17 at 10 pm

4 Shades of Blues

Motor City Blues & Boogie Woogie Festival

The blues come in many shades, from electric to indigo. In this program four brilliant artists create four “shades” of blues on stage. Grammy winner and Blues Hall of Fame inductee Koko Taylor & Her Blues Machine perform the gritty electric Chicago blues. Texan Ruthie Foster plays acoustic and gospel-tinged blues. The Tommy Castro Band brings the funky side of blues from the San Francisco Bay area. Belgrade’s Ana Popovic is an electrifying guitarist who is “too bluesy for jazz and too jazzy for blues.”

Sunday, September 20 at Midnight

Taking Root

The Vision of Wangari Maathai

Documentary follows Nobel Peace prize laureate Wangari Maathai in her quest to reclaim her land and her culture through the disarmingly simple act of planting trees. This direct action has fostered community solidarity, environmental literacy and political resolve that helped to bring down Kenya’s 24-year dictatorship.

**Wallace Stegner**

This portrait of the acclaimed writer, conservationist and teacher, celebrates the 2009 centennial of his birth. Stegner, who became one of America’s most notable writers with books like the Pulitzer Prize-winning *Angle of Repose*, mentored a generation’s great writers. Stegner’s *The Wilderness Letter* became the conscience of the conservation movement. This film paints a portrait of the West that Stegner loved and reveals insights into his life. Peter Coyote narrates.

Fifteen Legs
This film explores the efforts by activists around the country to create no-kill animal shelters and develop volunteer transportation networks intended to place sheltered animals into new homes. The film follows Walker, a 10-month-old puppy, on a journey from an animal control center to a new home and family made possible by several volunteer animal transporters.

**TV 13 Update:**

**Where to Watch Our Three Channels**

Over-the-air antenna viewers can now enjoy three digital channels from Public TV 13, but don’t feel left out if you’re a cable subscriber. Many cable viewers with digital TVs now have the option of tuning in more than one Channel 13.

On the Charter Cable basic tier, all three of our digital channels (and six other locals) are available for subscribers with digital TVs equipped with QAM tuners. You will need to re-scan the cable channels to find the new digital channels. This scanning can take 10 minutes or more, so be patient. You do not need to subscribe to the digital tier to receive these channels, but viewers with older cable installations may need to call Charter and request that they replace a filter that blocks digital channels. Charter digital tier subscribers can find SD versions of channels 13.2 and 13.3 on 313 and 314. Charter HD tier subscribers will also find TV13/HD on Charter channel 783.

Other area cable companies also have the option of picking up Public TV 13’s additional channels, and some plan to upgrade their service to include them. Call your local cable provider for more information.

**New Chief Engineer Joins WNMU**

In June, Public TV 13 said ‘bon voyage’ to our Chief Engineer, Dave Bett, who is now enjoying retirement on his sailboat. Dave began working as an engineer here at WNMU in 1985, and took over as Chief in 2004 — just in time to guide us through the digital TV conversion process. Under Dave’s capable direction, Channel 13’s engineering staff completely rebuilt the station’s technical infrastructure and totally changed the way we put TV on the air.

Dave will be hard to replace, but we were fortunate to find an excellent candidate right here in the U.P. Sonny Reschka, former Chief Engineer and Director of Operations at WLUC-TV6, joined our staff in August. You may recognize Sonny as one of the guest experts on our recent “Ask the Expert: DTV” call-in shows. Now he adds his expertise to our Public TV 13 team as another resource for our viewers with DTV reception questions. We welcome Sonny to our Public TV 13 and Public Radio 90 family.
